Instructions

- The midterm test will be a close-book test. You are not allowed to use textbooks or other materials during the test. However, you can bring one single-side A4 paper hand-written note for the test.

- There are 7 questions, including MC questions, short questions, long questions, calculation questions.

- The total marks of the test are 100 marks.

- You need to use the calculator for the test.

Reference Sheet Requirements

- The midterm test will be a close-book test. You are not allowed to bring textbooks or other materials, except one reference sheet meeting the requirements below:

  - The sheet should be one single sided A4 paper; it cannot be assembled from several smaller pieces of paper or notes;

  - All contents on the paper must be hand-written; no part of your paper can be photocopied or printed;

  - You can put any information on your reference sheet, such as draw pictures, write formulas/words/sentences, use colors; anything you want as long as it is in your own handwriting;

  - You can condense your writing as much as you want, and organize the information on your reference sheet any way you want;

  - You cannot share your reference sheet with another student during the test; you cannot use another student's reference sheet during the test neither.

- Any reference sheet not meeting the requirements specified above will be confiscated from you.
